STATELINE ANGELS MAKE INVESTMENT

Dale Falconer, President of the Stateline Angels group announces formation of:

SLA Crystals LLC

SLA Crystals, LLC has been formed specifically for members of the Stateline Angels to invest in Novus Ice Systems, LLC.

“Each month the Stateline Angels review a number of business plans and meet with entrepreneurs to gauge potential for their businesses. Those start-up opportunities that are deemed ready are further investigated and may ultimately obtain an investment from the membership” according to Dale Falconer.

Novus Ice Systems, LLC is a Chicago based start-up company. Novus Ice Systems, LLC has exclusive rights to patented technology enabling on-site manufacture, packaging, and dispensing of packaged ice all in one point-of-sale platform called “The Ice Station™”

“The Ice Station™” allows retail stores to better control inventory while reducing costs. It also reduces overall energy required to deliver packaged ice to consumers.

The value of the investment by SLA Crystals LLC in Novus Ice Systems, LLC is in excess of \$150,000.

“The SLA Crystals investors are excited about opportunities for Novus Ice and believe the management team will succeed in developing a prosperous and fast growing business” said Dale Falconer.
